tiptop blinds - leaders of design, innovation and quality.

Style & design at a glance

1956

tiptop blinds was established as a retail shopfront by Max & Bella Kinderman on Glenhuntly Road, Elsternwick. Out of love for the shopfront's heritage, the name *tiptop* was adopted as an homage to the original shopfront that was there before them.

1960

Melbourne's most popular window furnishing choice was 50mm Aluminium Venetian Blinds, and a *tiptop blinds* premier product.

1970

Global trends were reaching Australia, and sons Peter & Robert joined the family business. *tiptop blinds* were first to manufacture Roller Blinds, which were then called 'Holland Blinds'.

1988

As Australians became more conscious of sun protection, *tiptop blinds* began making automatic awnings out of Brella Canvas fabric and were soon manufacturing Folding Arm Awnings of all sizes.

1990

Timber Venetians were a key feature in homes and the most popular choice. *tiptop blinds* worked hard to keep up with demand for Cedar Venetians. Still a popular choice today, many choose the classic style of white and opt for PVC blinds as an affordable option.

1995

Curtains and drapes became the most popular choice in homes, loved for their blackout functionality and luxurious feel. Playful designs and patterns took centre stage in homes, with a strong focus on flowy drapery cascading to the floor while being tied back to let the light in.

2001

Through their reputation for quality craftsmanship and modern designs, *tiptop blinds* became a leader in window furnishings and moved to its current factory in Clayton. One of the industry's biggest factories, it boasts a state-of-the-art, purpose-built Melbourne facility that is ten times larger than their previous Elsternwick shopfront.

2005

Committed to reducing fabric waste, *tiptop blinds* acquired a first-of-its-kind Aeronaut 10m cutting table that uses technology to cut fabric with precision and minimise waste.

2010

Thanks to the increasing demand for modern chic fabric styles, *tiptop blinds* purchased its first 4300 Rollease Acmeda Cutting Table. This one-of-a-kind machine cuts fabric by blade-crush-ultrasonic waves, enabling the best possible treatment for each type of fabric to get that perfect quality finish.

2020

To meet the needs of the Australian outdoor lifestyle, *tiptop blinds* further expanded their range by purchasing a 6m wide TR-1500 impulse welder that welds up to 6m of fabric for awnings and zip screen walls.

2021

tiptop blinds unveiled their state-of-the-art Clayton showroom. Offering an in-person shopping experience like no other, customers can view and feel their range of products while receiving guidance from in-house design experts.

About us

tiptop blinds is an Australian-owned and operated manufacturer of internal and external window solutions. Craftsmanship, quality and design have been at the forefront of our company since 1956.

Through our state-of-the-art, purpose built Melbourne factory, we pride ourselves on delivering sophisticated architectural window furnishing solutions for contemporary spaces, with premium options for light filtering and privacy needs.

Our commitment to providing the highest quality products with exceptional service has built our reputation as a favourite supplier for residential and commercial clientele.

At *tiptop*, we offer an extensive selection of Curtains, Blinds and Shutters for your interiors, plus Awnings, Alfresco Roof Systems and External Venetians for facades and outdoor living. Delivering a superior collection of internal and external window furnishings enables *tiptop* to successfully deliver highly integrated, sophisticated window coverings across your project.

Enhance the luxury and convenience of your home with motorisation, available for our full range of Internal and External Products.

Blinds

Create your dream home.

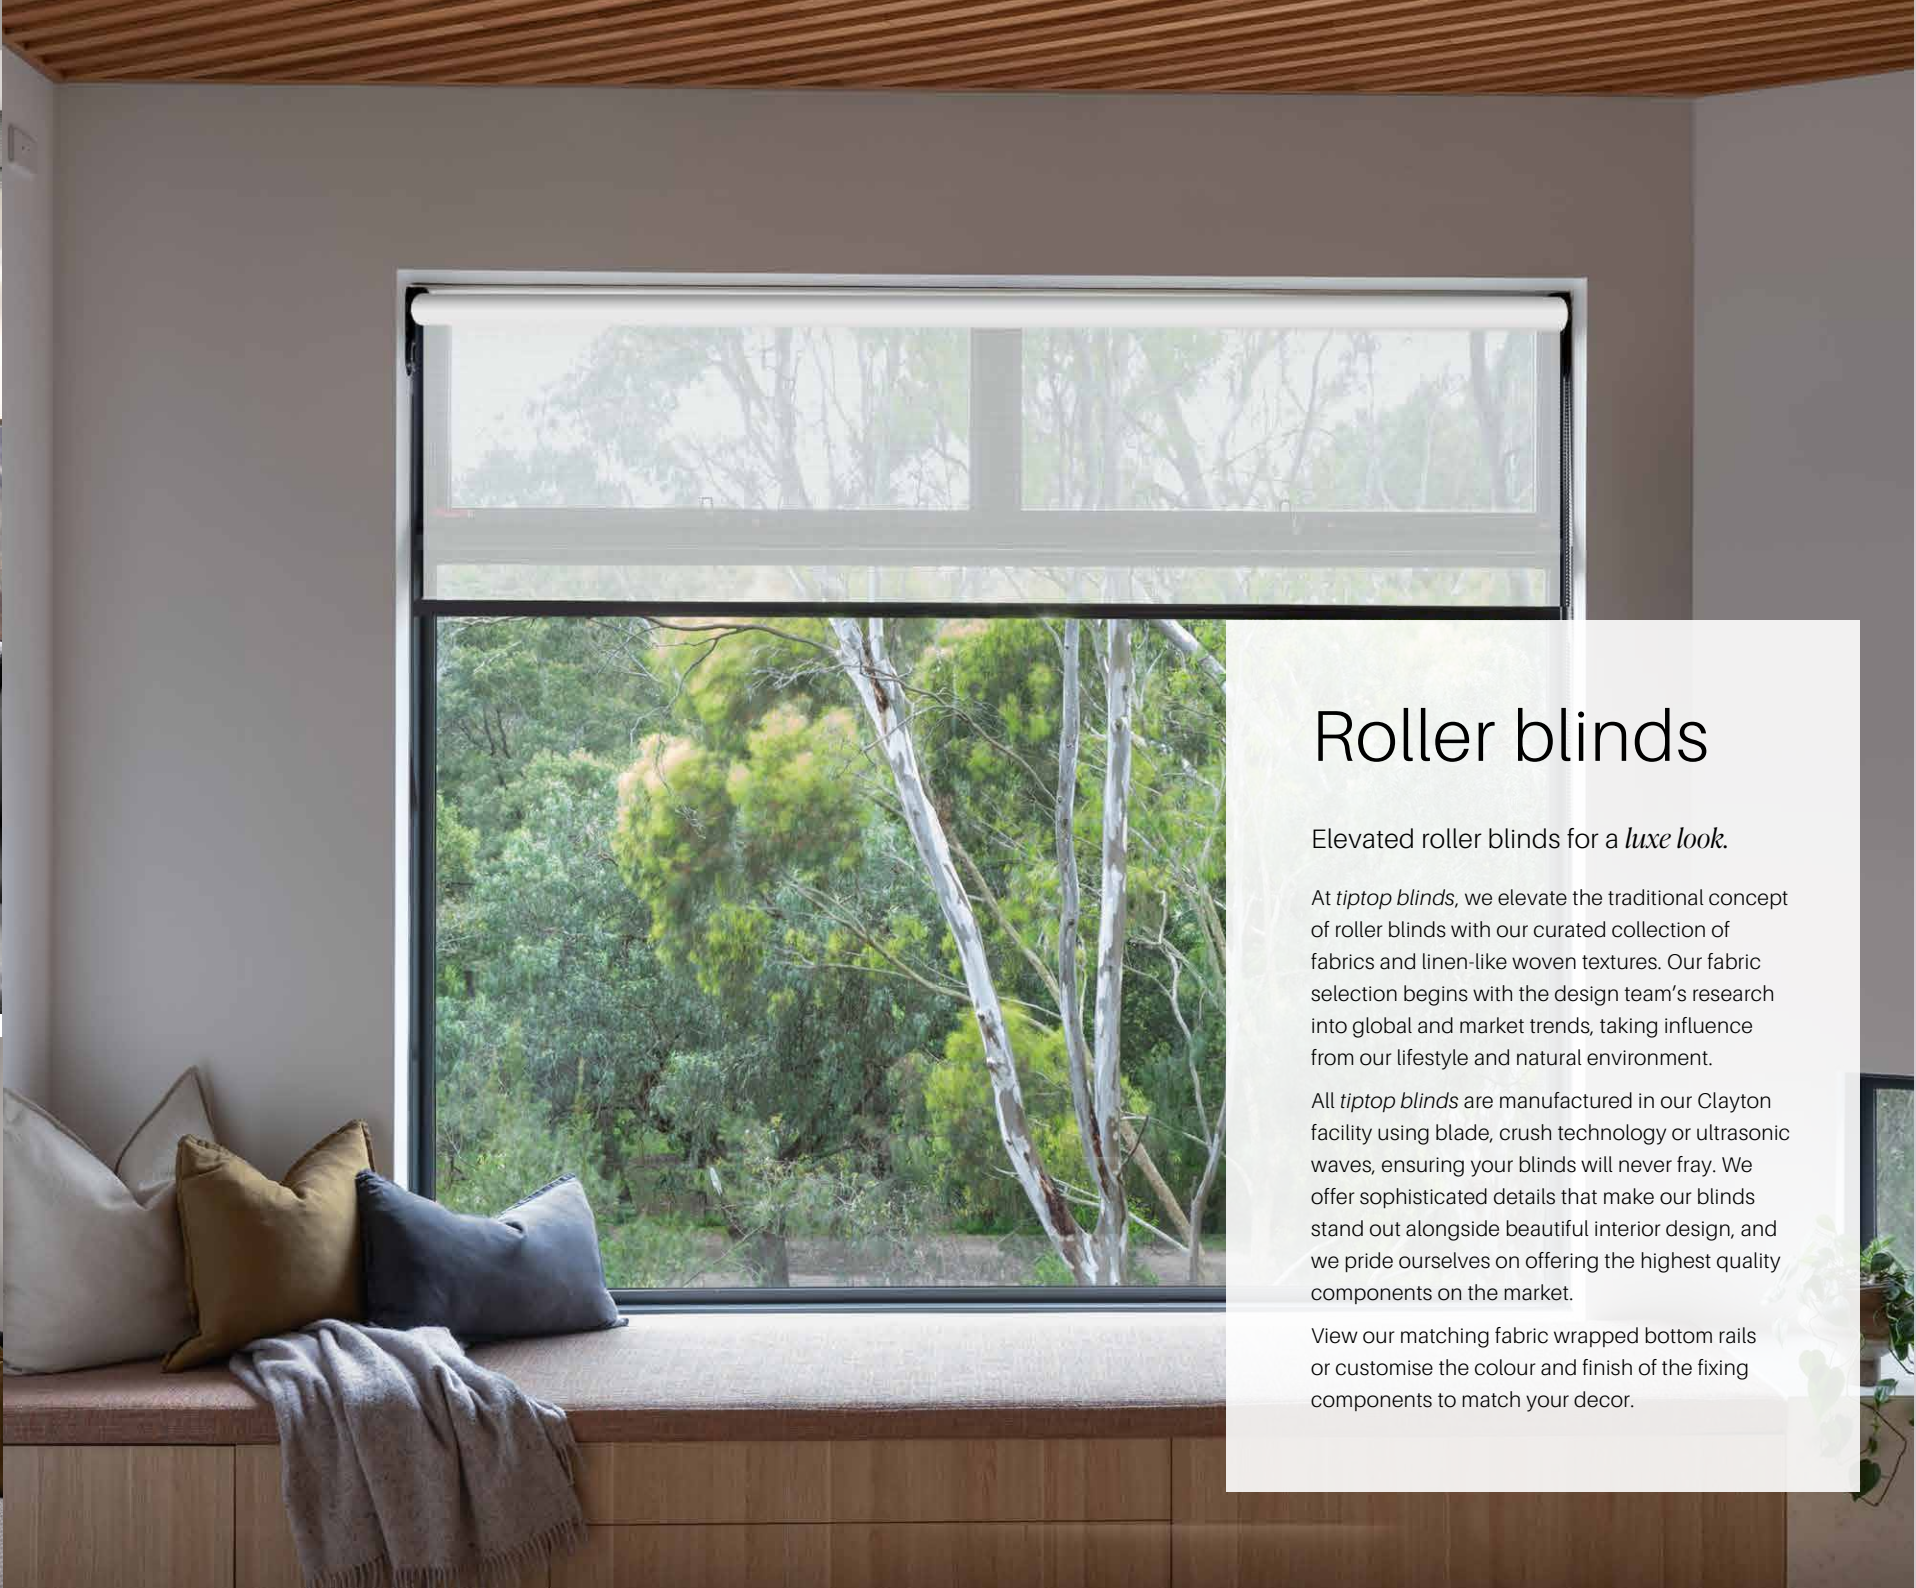

With beautiful blinds designed for every window, we ensure that when your outside view is covered, your interior view remains perfectly styled. Whether you are looking to complement a contemporary interior, a Hamptons style home, or a period restoration, *tiptop blinds* offers the perfect solution to elevate your space.

Discover our range of Roller Blinds for modern and classic styling or select Roman Blinds to add a luxurious touch to any window. Coupled with our soft flowing curtains, blinds are the ultimate choice for light control, privacy and thermal insulation.

With skylights increasingly being used as an architectural feature, *tiptop* has developed industry leading Skylight Shading Systems allowing full control of natural sunlight so you can enjoy light filled spaces year round.

Our range includes:

- Roller Blinds
- Roman Blinds
- Venetian Blinds
- Cellular Blinds
- Skylight Blinds

Roller blinds

Elevated roller blinds for a *luxe* look.

At *tiptop blinds*, we elevate the traditional concept of roller blinds with our curated collection of fabrics and linen-like woven textures. Our fabric selection begins with the design team’s research into global and market trends, taking influence from our lifestyle and natural environment.

All *tiptop blinds* are manufactured in our Clayton facility using blade, crush technology or ultrasonic waves, ensuring your blinds will never fray. We offer sophisticated details that make our blinds stand out alongside beautiful interior design, and we pride ourselves on offering the highest quality components on the market.

View our matching fabric wrapped bottom rails or customise the colour and finish of the fixing components to match your decor.

Curtains

Subtle and luxurious *elevation*.

Enhance the atmosphere of your space by creating movement, texture, and functionality with our range of premium curtains. A home becomes complete with an expertly curated selection of curtains, hung floor-to-ceiling beautifully diffusing light around the home.

At *tiptop*, we offer a wide range of curtain options with high-quality details and finishes, including our most popular S-fold or pinch pleat headers highlighting the natural, subtle waves in the fabrics.

tiptop invests in a deep understanding of the market, offering an extensive range of linen blends, each with its own unique character, transparency and natural creasing properties.

With the latest whites and soft neutrals available in our fabric palette we have the perfect tone to work with your aesthetic.

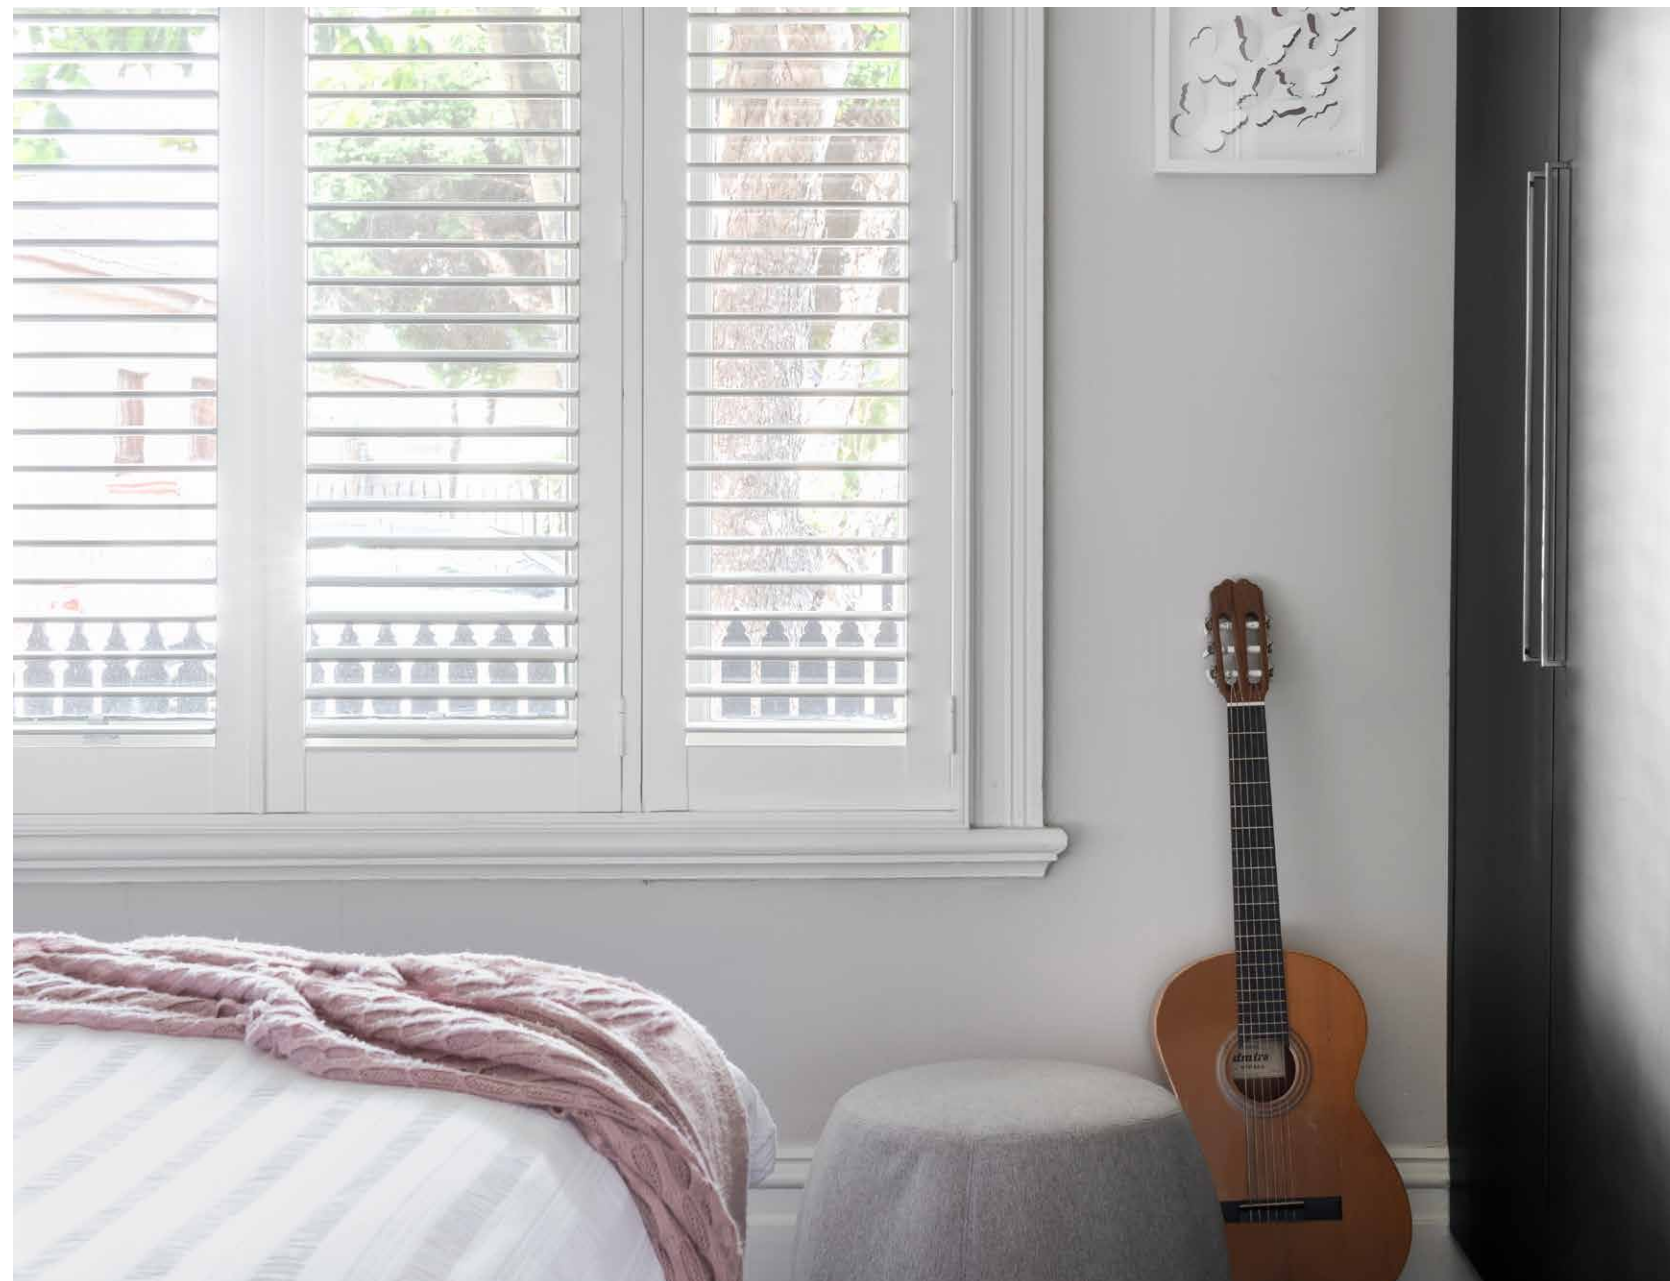

Shutters

Plantation shutters add an *architectural feature*.

Shutters are all about the play of shadows and light. Sophisticated and contemporary, shutters add essential functionality to the home by maximising the flow of light into your space without compromising your privacy. Angle the shutters to allow diffused light in a subtle, sun-kissed way throughout the home, or easily close to provide total light control. When you are ready to fully enjoy the outdoor views, swing or bi-fold your shutters open and let the outdoors in.

At *tiptop*, our shutters are designed to be incredibly durable, withstanding humidity, heat and sunlight, making them the perfect choice for bathrooms, laundries and kitchens.

For the ultimate feature, *tiptop* offers the latest, innovative painting technology enabling you to colour match your shutter to any Dulux paint specification. Whether you choose to match or contrast your wall colour, window frames or surrounding tiles, at *tiptop* the choice is yours.

External solutions

Contemporary outdoor living.

For lovers of alfresco living, our innovative range of exterior blinds and shade systems add contemporary style and elevated shade options to your home. Crafted to withstand harsh Australian conditions, they are specifically designed to optimise the use and enjoyment of relaxed alfresco entertaining areas.

The UV resistant range of fabrics offer the ultimate protection from the elements including sun, wind and insects so you can plan and enjoy year round outdoor living. Choose from fully retractable zipscreen walls, folding arm awnings or retractable roof systems to optimise the usability and orientation of your outdoor areas.

Our range includes:

- Awnings
- Alfresco Zip Screens
- Folding Arm Awnings
- External Venetians
- Hoods + Canopies
- Conservatory/Retractable Roof Systems
- Fixed Louvres

Bring the outdoors in with our contemporary range of outdoor living solutions

External Venetians

Sun protection meets curb *appeal*.

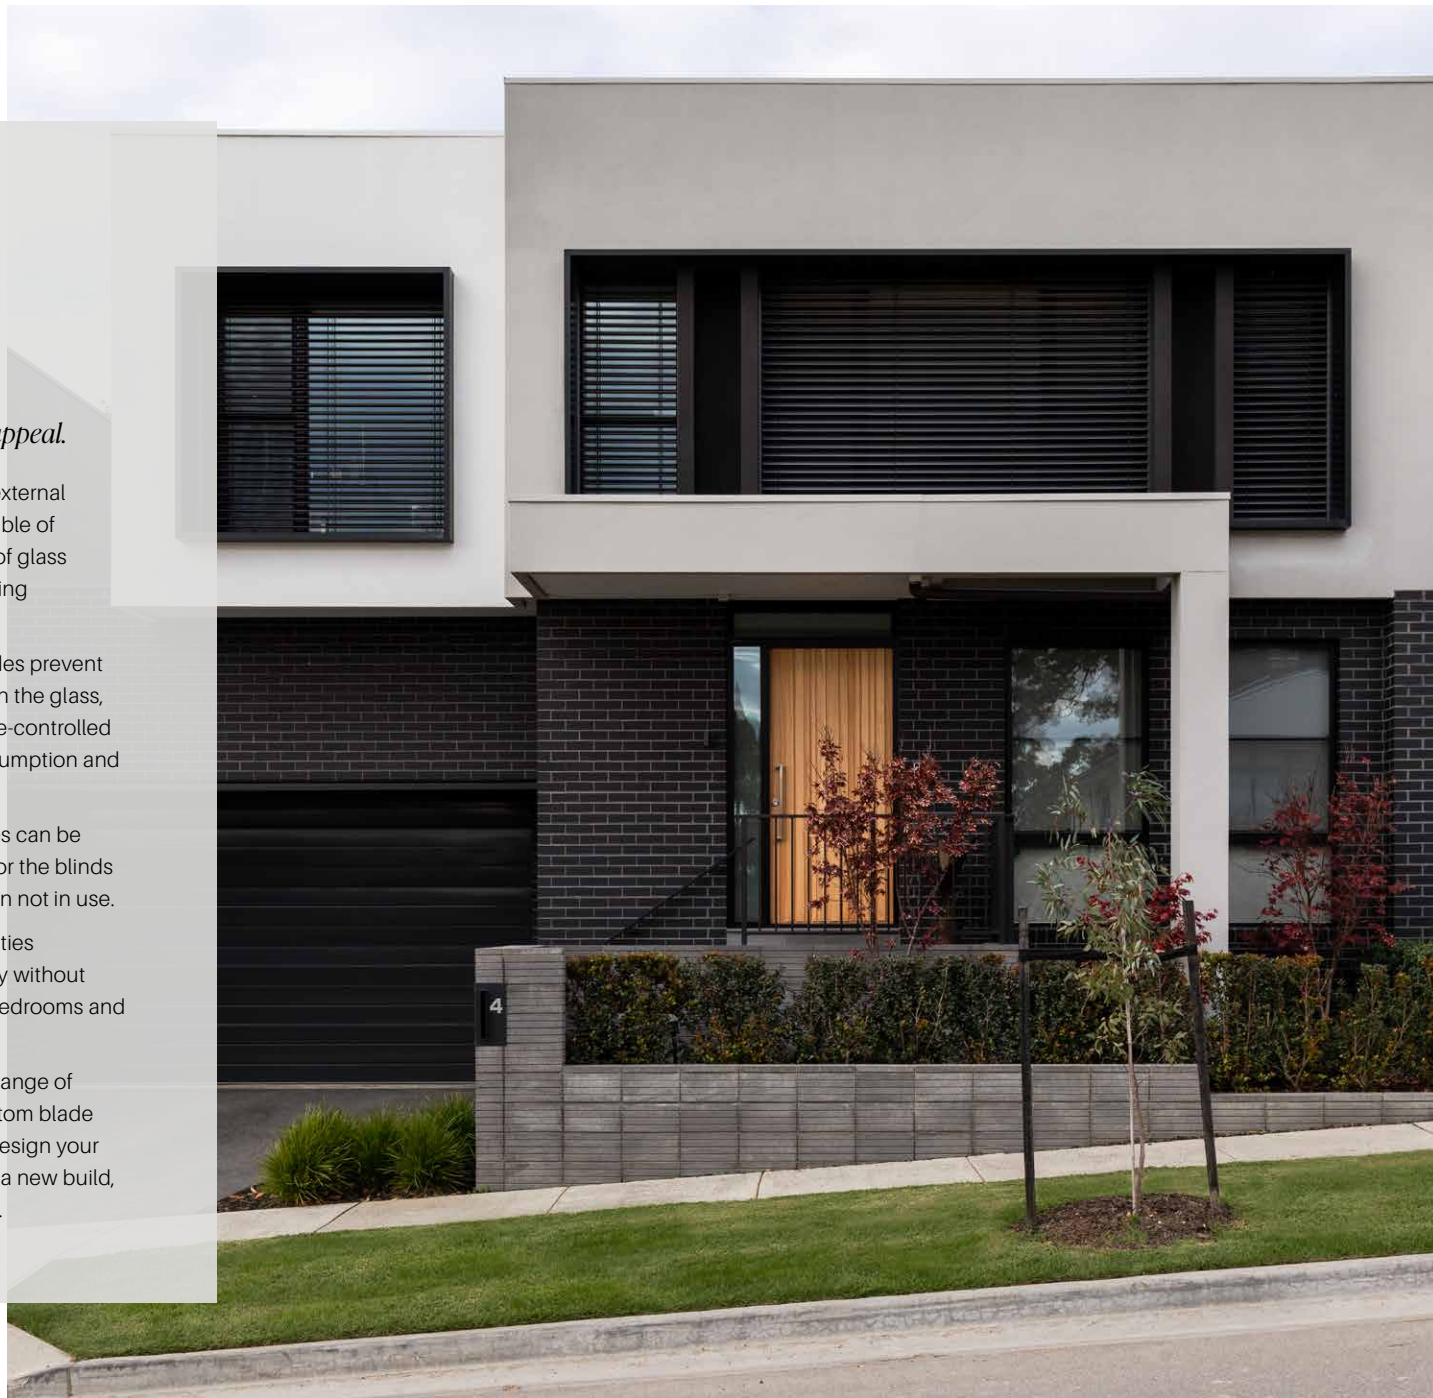

Streamlined and functional, these external Venetian shading systems are capable of efficiently shading large expanses of glass whilst simultaneously creating striking architectural facades.

The externally fixed aluminium blades prevent the sun's rays from entering through the glass, creating a comfortable, temperature-controlled interior that minimises energy consumption and greenhouse emissions.

With minimal adjustment, the blades can be angled to allow soft, diffused light, or the blinds can retract entirely out of sight when not in use.

These versatile light filtering properties provide the optimal levels of privacy without compromising natural daylight to bedrooms and living spaces.

At *tiptop*, we offer a contemporary range of external Venetian options, with custom blade sizes and colour options. Custom design your external Venetians to integrate into a new build, or retro-fit to your existing windows.

Residential projects

Elevated designs you will love to live in.

Commercial residential

Sophisticated solutions for large-scale commercial residential.

As a preferred supplier across many commercial residential projects, we specialise in providing versatile project solutions.

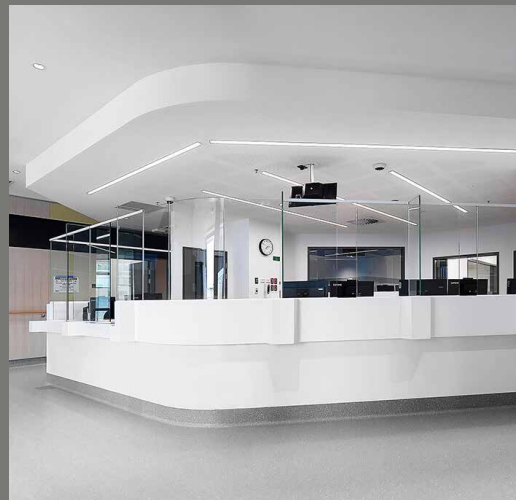

Our dedicated commercial team is available to assist for the duration of your project. We are actively involved in the tender process, providing competitive quotes and product solutions as required.

At *tiptop* we have the flexibility to ensure we can meet your deadlines with our high-quality products and reliable installation team.

We work with:

- Residential Builders
- Commercial Builders
- Developers
- Architects
- Real Estate Agents

Commercial applications

The leading supplier of large-scale window systems.

Our specialist in-house commercial team work on extensive tenders for the Hospitality, Education, Health Industries, Emergency Services and Local Governments. As your project partners, we offer an end-to-end service including consultation, supply, and installation of our advanced window furnishings.

With the increase of highly desirable internal-external hospitality venues, *tiptop's* experienced consulting and manufacturing team can provide technical assistance to ensure your external retractable wall and roofing solutions provide the weather protection you require.

We specialise in:

Schools + Education Facilities

Hospitals + Medical Centres

Cafés + Restaurants

Function Centres

Government Housing
